

**National Interagency Coordination Center  
Incident Management Situation Report  
Wednesday, April 20, 2022 – 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (103 fires)
New large incidents:	1
Large fires contained:	2
Uncontained large fires: ***	11
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	3
Type 2 IMTs committed:	0
Complex IMTs committed:	0

Nationally, there is one fire being managed under a strategy other than full suppression.

\*\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

**Southwest Area (PL 4)**

New fires: 10  
 New large incidents: 1  
 Uncontained large fires: 7  
 Type 1 IMTs committed: 3

**\* Cooks Peak**, Las Vegas District, NM State Forestry. Five miles north of Ocate, NM. Timber, grass and brush. Active fire behavior with running, group torching and spotting. Residences threatened. Evacuations and road closures in effect.

**Crooks**, Prescott NF, USFS. IMT 1 (CA Team 4). Eleven miles south of Prescott, AZ. Timber and chaparral. Active fire behavior with running, group torching and flanking. Communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

**McBride**, Capitan District, NM State Forestry. IMT 1 (SW Team 2). IMT is also managing the Nogal Canyon incident. One mile southeast of Ruidoso, NM. Light slash and grass. Minimal fire behavior with backing, creeping and smoldering. Numerous structures threatened.

**Nogal Canyon**, Capitan District, NM State Forestry. Eight miles northwest of Ruidoso, NM. Timber. Minimal fire behavior with backing, creeping and smoldering. Structures threatened. Road closures in effect.

**Hermits Peak**, Santa Fe NF, USFS. IMT 1 (SW Team 1). Twelve miles northwest of Las Vegas, NM. Timber. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

**Bonita**, Coronado NF, USFS. Six miles southwest of Ruby, AZ. Grass and brush. Minimal fire behavior with smoldering. Structures threatened.

**Big Hole**, Bernalillo District, NM State Forestry. Nine miles south of Los Lunas, NM. Timber and brush. Minimal fire behavior with smoldering.

\*\*\*Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

\*\*\*Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

**Predictive Services Discussion:** Elevated to critical conditions are expected over much of the Southwest into west Texas and the southern Front Range of Colorado where west winds of 15-25 mph with gusts 30-40 mph will coincide with afternoon relative humidity of 3-15%. Downslope west winds are also forecast across the High Plains of eastern Wyoming into South Dakota and Nebraska with gusts to 45 mph possible. Dry and breezy conditions are expected across the western Florida peninsula as well. Showers and thunderstorms will develop across the central and northern Mississippi Valley with severe thunderstorms possible over eastern Oklahoma into the Ozarks. A deep Pacific trough will begin to move into the West Coast with heavy rain along the northern California and Northwest coasts and snow for the Cascades and northern Sierra.

# LEAD Time

## Leadership Environment

*Leadership Category*

Leadership is the act of influencing people to achieve a result. The leadership environment is made up of critical elements that a successful leader must consider in planning for effective action. Those critical elements are:

- You – the leader, who is ultimately responsible for all action and results.
- Your people – those who you are responsible for.
- Situation – comprised of the many unique variables that influence a leader's decision such as objectives, conditions, resources available, organizational influences, and others affected by the action.
- Consequences – the short- and long-term effects of your actions.

Leaders constantly assess the elements of the leadership environment and adapt accordingly. Successful leaders understand the interplay of these variables and demonstrate flexibility in selecting appropriate leadership tools and techniques as situations change.

### Discussion Points:

- Each mission has a different level of risk. Discuss how the four leadership environment elements affect perceived risk in a changing environment.
- Each situation is unique and changes over time. Discuss what changes you might predict in your environment today.
- Discuss what leadership tools might be appropriate for those predicted changes today.
